NCLEX Certification Prep

Are you a Licensed Practical Nurse or Paramedic looking to expand your career and education to become a Registered Nurse? Laurel's new 16-month LPN to ADN transition program is built for students like you! The growing population yields a high demand for skilled nurses. Career opportunities for nurses are expected to grow, giving nursing students peace of mind that they may secure jobs in settings including hospitals, clinical practices, nursing homes, home healthcare, or in military service.

Clinical duties include taking and recording vital signs and medical histories, preparing patients for examination, drawing blood, and giving medications as directed by the physician.

Students will develop skills in:

- ◆ Advanced fundamentals of nursing
- ◆ Accessing patients' histories and symptoms
- ◆ How to provide compassionate nursing care to clients
- ◆ Proper communication skills with patients
- ◆ Critical decision-making skills
- ◆ Learn to work in a team to determine and provide the best care options
